Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3, 41-56, and 81-88 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- In claim 1, it is unclear what “C to Zo” is (line 3 on page 3 of 14 on the Response to Restriction Requirement and Preliminary Amendment) in the definition of “Rg”. A clarification is required.
- Claim 1 states Rg as having “iii) an alkenyl group of 1-10 carbon atoms that is straight chain or branched having one or more triple bonds...” Alkenyl cannot have triple bonds. A clarification is required.
- In claim 1, when R_a represents R-R₁, R represents hydrogen, and R₁ is OH, the resulting substituent will be HOH. A clarification is required.

Art Unit: 1616

- In claims 51 and 83, R_a represents $C(O)H$. After reading the definition of R_a in claim 1, it is unclear how R_a can be $C(O)H$. A clarification is required.
- In claim 1, it is unclear what is intended by " $>CH_2$ " in the definition of R_g . A clarification is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 41-56, and 81-88 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5763432 (Tanabe et al.) and US 6046186 (Tanabe et al.).
